Authentic 100% Belgian Linen

Table linen hire for weddings and events

Top tips from us to you

#1

Creases and fold lines can ruin your images of the day - Ask your photographer! We roll our linen to eliminate excessive fold lines but it's always ideal to be sure this is discussed with your caterer, venue or stylist. A portable steamer is a quick and easy option for DIY as well.

#2

When calculating what length table cloths you'll need, don't forget to add 1.5m for the drop at each end. And for long banquet style tables, a minimum of 20cm for overlapping table cloths.

#3 Table linen can be a cost effective way to transform your table settings. Full length table cloths for a more formal space, pop of colour or sophistication with a knotted napkin or rustic with a loose flowing table runner.

#4 Ask the professionals! If it's all a bit too much don't hesitate to reach out to your vendors. We're here to help and make your day as seamless as possible.
